## iOS Developer

### O Objective

My objective is becoming an iOS Developer cause my dream is making great, useful apps for such beautiful platform as iOS. Also applying for a trainee position will help me to get more experience and knowledge in Swift programming language.

### E Experience

I am learning Swift programming language for about 7 month. My path of studying is practice, so I took some courses and made projects with them and on my own. Yet, have no commercial experience and really want to get it.  
Udemy certificate:

### E Education

**Taras Shevchenko National University of Kyiv**

*Bachelor in Geography*  
2020 – by now

### S Skills

Swift - 6/10  
SwiftUI - 5/10  
Storyboard autolayout - 6/10  
MVC - 6/10  
MVVM 5/10  
Basic Animations 4/10  
JSON-parsing - 6/10  
OOP - 5/10  
Firebase - 6/10  
URLSession - 5/10  
CoreData - 5/10  
Realm - 5/10  
English - Intermediate (Free documentation reading)

### P Projects

In my projects I have implemented Concurrency, OOP, SOLID Principles, Realm, Firebase, Autolayout, SwiftUI, MVC and MVVM patterns.  
My projects are located on GitHub:
